

KINGS HIGH SCHOOL

Grass Kart Challenge
2008

What we have enjoyed the most

What we have enjoyed the most

□ In the second half of this challenge we have enjoyed seeing our kart come together and have a result for the work that has been getting done. □

What we have enjoyed the least

What we have enjoyed the least

While working on the kart in the second half of the competition the things that we have enjoyed the least are keeping time sheets, pulling it apart and having to put it together again.

Things that we have learned

Things that we have learned

During the time spent on building the kart we have gained knowledge of how to weld, bend and join metals, work together and how to construct a grass kart.

What we would do differently

What we would do differently

If we were to do this again we would change the position that we have put the engine in, the design of the frame and location of the fuel tank.

Advice to other teams

Advice to other teams

Our advice to the other teams is
 HAVE FUN!

Funniest thing!
Funniest thing!

Test driving our kart on Wednesday night and it being crashed, resulting in Thursday being a 'Fix It' day. □
